

Unparalleled expertise in advanced laboratory testing

From New York to California and beyond, Innovative Blood Resources provides best-in-class testing services to regional and national hospitals and clinics, university medical centers, blood centers, reproductive medicine organizations, independent clinics and cryobanks, and also provides backup support to various testing laboratories.

CREDENTIALS & EXPERIENCE

- Decades of experience collecting, testing, and distributing more than 3 million units of blood annually
- FDA licensed and European Union (EU) compliant for blood manufacturing and testing
- Accredited by AABB, CLIA, and The Foundation for the Accreditation of Cellular Therapy (FACT)
- Centralized donor screening testing site for Be The Match (formerly the National Marrow Donor Program)

AABB-ACCREDITED IMMUNOHEMATOLOGY REFERENCE LABORATORY

With access to the American Rare Donor Program, we provide services to all hospital partners, other local and national hospitals, national blood centers, and lifescience companies.

HEMATOPOIETIC PROGENITOR CELL (HPC) LABORATORY

Supporting cancer patients and PBSC adult donor collections for Be The Match and other program partners, our AABB- and FACT-accredited program is equipped to support autologous cellular immunotherapy.

DONOR TESTING

Equipment redundancy ensures uninterrupted testing and fast turnaround of accurate results for a full menu of infectious disease testing—including confirmatory testing for donor counseling.

- Viral screening, including the most widely-used testing platforms
- Enzyme Immunoassay (EIA) and molecular nucleic acid testing (NAT)
- ABO/Rh typing
- *T. cruzi* and sickle cell screening
- West Nile Virus PCR
- Best-practice turnaround within 14-18 hours of sample receipt
- Testing results managed with 510-k FDA-cleared software
- Babesia testing under IND

CLINICAL TRIAL SUPPORT

Participating in key industry clinical trials—including data collection to support the licensure of next generation instruments and assays—has consistently positioned Innovative Blood Resources at the forefront of the rapidly evolving donor testing industry.

REPRODUCTIVE & IVF MEDICINE

Decades of experience performing FDA-regulated testing—including male and female test panels—we deliver rapid turnaround and accurate results, and provide clients with personal attention and professional guidance through every step of the process.

Rely on Innovative Blood Resources—a recognized leader in transfusion medicine with an international reputation for quality, innovation, and service excellence.
