

HCT/P Donor Testing Services

New York Blood Center Enterprises

New York Blood Center Enterprises (NYBCE) and its local division Memorial Blood Centers provide best-in-class laboratory services, HCT/P testing, and biomedical expertise to independent clinics, milk banks, cryo banks, medical facilities, stem cell programs, reproductive organizations, and more.

Regulated and licensed by the FDA, our donor testing facilities and expert staff deliver:

Dedicated Customer Service Support

Personal attention and professional expertise to guide you through every step of the process.

Automated and Redundant Equipment

Ensures uninterrupted testing with rapid turnaround times. Results typically available within 48-72 hours.

Staffing 7 Days a Week, Including Holidays

Our laboratory is staffed 7 days a week, including holidays, to ensure your needs are met in a timely manner.

FDA-Licensed Collection Kits

All screening and confirmatory tests are performed with FDA licensed, approved, or cleared test kits specifically for use in donor screening or approved/cleared for use in low-prevalence, asymptomatic populations.

Flexible Reporting Options

Customized test request forms and lab information software for reporting test results.

Convenient Shipping

Convenient prepaid return shipping labels supplied with sample shipping containers that meet IATA 650 requirements. Logistics support available for client convenience.

Expansive options for your testing needs

NYBCE's comprehensive testing catalog includes multiple pre-defined panels for easy ordering along with a la carte testing options for client needs. Achieving measurable efficiencies through high-volume infectious disease testing on more than 450,000 donors each year enables us to maintain competitive pricing.
